A DEADLY EDUCATION

Naomi Novik

Enter a school of magic unlike any you have ever encountered. There are no teachers, no holidays, friendships are purely strategic, and the odds of survival are never equal. Once you're inside, there are only two ways out: you graduate or you die. El Higgins is uniquely prepared for the school's many dangers. She may be without allies, but she possesses a dark power strong enough to level mountains and wipe out untold millions - never mind easily destroy the countless monsters that prowl the school. Except, she might accidentally kill all the other students, too. So El is trying her hardest not to use it... that is, unless she has no other choice. With flawless mastery, Naomi Novik creates a heroine for the ages - a character so sharply realized and so richly nuanced that she will live on in hearts and minds for generations to come.

BREATH

James Nestor

There is nothing more essential to our health and wellbeing than breathing: take air in, let it out, repeat 25,000 times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. In *Breath*, journalist James Nestor travels the world to discover the hidden science behind ancient breathing practices to figure out what went wrong and how to fix it. Modern research is showing us that making even slight adjustments can: - jump-start athletic performance - rejuvenate internal organs - halt snoring, allergies, asthma and autoimmune disease, and even straighten scoliotic spines. None of this should be possible, and yet it is. Drawing on thousands of years of ancient wisdom and cutting-edge studies in pulmonology, psychology, biochemistry and human physiology, *Breath* turns the conventional wisdom of what we thought we knew about our most basic biological function on its head. You will never breathe the same again.
