

THE COVENANT OF WATER

Abraham Verghese

Spanning the years 1900 to 1977, *The Covenant of Water* follows a family in southern India that suffers a peculiar affliction: in every generation, at least one person dies by drowning - and in Kerala, water is everywhere. At the turn of the century a twelve-year-old girl, grieving the death of her father, is sent by boat to her wedding, where she will meet her forty-year-old husband for the first time. From this poignant beginning, the young girl and future matriarch - known as Big Ammachi - will witness unthinkable changes at home and at large over the span of her extraordinary life, full of the joys and trials of love and the struggles of hardship. A shimmering evocation of a lost India and of the passage of time itself, *The Covenant of Water* is a hymn to progress in medicine and to human understanding, and a humbling testament to the hardships undergone by past generations for the sake of those alive today. Imbued with humour, deep emotion and the essence of life, it is one of the most masterful literary novels published in recent years.

ROMANTIC COMEDY

Curtis Sittenfeld

With a series of heartbreaks under her belt, Sally Milz - successful script writer for a legendary late-night TV comedy show - has long abandoned the search for love.

But when her friend and fellow writer begins to date a glamorous actress, he joins the growing club of interesting but average-looking men who get romantically involved with accomplished, beautiful women. Sally channels her annoyance into a sketch, poking fun at this 'social rule'. The reverse never happens for a woman.

Then Sally meets Noah, a pop idol with a reputation for dating models. But this isn't a romantic comedy - it's real life. Would someone like him ever date someone like her?

Skewering all our certainties about why we fall in love, ROMANTIC COMEDY is a witty and probing tale of how the heart will follow itself, no matter what anyone says. It is Curtis Sittenfeld at her most sharp, daring and compassionate best.

LOVE THEORETICALLY

Ali Hazelwood

The many lives of theoretical physicist Elsie Hannaway have finally caught up with her. By day, she's an adjunct professor, toiling away at grading labs and teaching thermodynamics in the hopes of landing tenure. By other day, Elsie makes up for her non-existent paycheck by offering her services as a fake girlfriend, tapping into her expertly honed people-pleasing skills to embody whichever version of herself the client needs. Honestly, it's a pretty sweet gig - until her carefully constructed Elsie-verse comes crashing down. Because Jack Smith, the annoyingly attractive and arrogant older brother of her favourite client, turns out to be the cold-hearted experimental physicist who ruined her mentor's career and undermined the reputation of theorists everywhere. And he's the same Jack Smith who rules over the physics department at MIT, standing right between Elsie and her dream job.
